Emery School District Broadband Connectivity Grant
Connectivity Grant Application

This is a one-time competitive grant program for K-12 local education agencies to create solutions for home broadband access (such as home-internet or hotspots) for K-12 families to extend learning beyond the school building.

This only applies to the 20/21 school year

Grant requires that the student: 1. Must show financial need. 2. Must be enrolled in online or blended learning within our district. The application will be reviewed by the principal and District Administrators for approval.

School student enrolled in:
